## **Children's Beach House Thanks Nucar's Lewes Automall**

**August 24, 2011 ~ Lewes, Delaware:** Throughout the past years, many Delaware children, their families, and the local community have benefited from the wise and far-reaching vision of the Children's Beach House founder, Lydia C. du Pont. Whether first, in the original cottage on Lewes Beach or now, in our present structure located at 1800 Bay Avenue in Lewes, our mission, addressing the special needs of local Delaware children, has remained constant.

To ensure Lydia's wish, there are others in Delaware who have joined our efforts by becoming a CBH Partner in our new "*Partner Program*". A CBH Partner may join at the Champion level contributing \$25,000, Colleague level contributing \$20,000, or the Associate level contributing \$15,000. Such gifts are a crucial resource for Children's Beach House, and the support from the CBH Partners ensure the continuation of our vital programs for the children we serve.

We are deeply appreciative for the dedication and support for Children's Beach House by the Nucar Auto Group, our newest associate partner. With a strong presence in New Castle County and Sussex County, we are extremely thankful that Nucar Auto Group has decided to support our cause and we are pleased to recognize them as an Associate Partner having contributed \$15,000 to our organization. "We decided to contribute to Children's Beach House, because we feel that it is very important to help the special needs of local Delaware children," said Chris Dagesse of Nucar. "CBH is in our back yard and we want to have the kids enjoy it to its fullest. We are strong believers in giving back to the community and feel this is a great way of doing that."
